

THE CHRONICLE

VOL. XIII. No. 15.

CROSSFIELD, ALBERTA, THURSDAY, MAY 13th, 1920.

PRICE \$1.50 A YEAR.

WM. LAUT

Get Full Earning Power from Farm Machinery What Means Most to You is What We Try Most to Give

There is only one way to buy an implement economically.

Buy it on the basis of its earning power.

Buy it for its ability to do good work for you right from the start and year after year.

It is our aim to sell full earning power every time we sell a farm implement.

That is why we buy from a firm that takes every care to maintain its reputation for making only good implements,

—why we show you the implements before you buy so that you can be sure it fits your requirements,

—why we set the implement up exactly right before we turn it over to you,

—why we are always ready to help you understand every adjustment before you start operating the implement,

—why we maintain a prompt repair service so that when parts become worn, you can renew them without loss of time,

All of those things go to insure full earning power. Yet their great importance is sometimes overlooked. You will appreciate the care we take in observing them.

Come in and see us whenever you need a farm implement.

William Laut,
Groceries, Hardware, Implements, Harness.

MAGIC BAKING POWDER

Contains no alum

We unhesitatingly recommend Magic Baking Powder as being the best and purest baking powder possible to produce. It possesses elements of food that have to do the building up of brain and nerve matter and is absolutely free from alum or other injurious substitutes.

Rehabilitating the World

The Supreme Council of the League of Nations is making substantial progress with the difficult task entrusted to it of disentangling the complex races which for so long have been held subject to the Sultan under the tyranny of the despotic and murderous Turks. Europe and Asia present many international, racial and religious problems, but none quite so difficult of solution as that of the old Turkish empire. It is easy to criticize Great Britain and France because of the decision to leave the Turks in Constantinople, but it is not so easy to outline an alternative policy likely to prove successful and not provoke a still more serious situation, and one that might have far-reaching results of a disastrous character. However, the power of the Turk is destroyed, and an end is in sight to the long chapter of Ottoman misrule, rapine and murder.

Having been rescued from the domination of the Turks by the victorious British armies, Palestine and Mesopotamia have been entrusted to Great Britain to be administered under a mandate from the League of Nations, and a national home for the Jews is being established under the protection of the United Kingdom. France is given a mandate for the administration of Syria, and the United States has been asked to accept the mandate for oppressed and downtrodden Armenia. Thus to the three most powerful of the allied nations, those enjoying the most democratic forms of government, and actuated by the loftiest ideals, is given the humane and civilizing work of bringing a new era of happiness and prosperity to millions of people who for centuries have been little more than slaves, with life and property in hourly danger of extinction by the unpeppable Turk.

In this column last week reference was made to the gigantic financial problems which must be solved by the people of Canada, and it is possible that before this appears in print the budget will have been presented at Ottawa and the policy of the Government indicated as to how the national obligations are to be met. It is inevitable that there must be a further increase in taxation, and Canadians must be prepared for it. But grave as our position in Canada may be, and heavy the burdens to be borne,

they are slight in comparison to those of other lands and peoples.

The German budget was recently presented to the Reichstag. The financial burden which the people of Germany must meet in some form or another this year reaches the stupendous total of \$2,500,000,000 marks, or roughly speaking, \$13,000,000,000, or more than four times the gross national debt of Canada. Dr. Wirth, the German Finance Minister, frankly admits he is at a loss to know how the money is to be raised or where it is to come from.

Italy is carrying an enormous debt. It was heavy before the war, and has been increased many times over. The government and people are meeting it courageously, and a loan of 20,000,000 lire has just been raised by the Italian people.

France, too, has recently floated a loan among its own people of 15,000,000 francs, or an amount equal to the national debt of Canada. The French parliament is now engaged in passing measures which will enormously increase the taxation imposed on the French people.

With a national debt of approximately \$40,000,000,000, Great Britain has accepted the great task of paying it off. No further borrowings will be made, but taxation is being substantially increased. This year British revenue is estimated at \$7,000,000,000, or more than double our national debt. This great revenue will provide for a reduction in the British national debt of at least \$1,000,000,000, while in 1921 it is estimated that a further reduction of \$1,500,000,000 will be made.

Canada has not yet made a start at debt reduction; on the contrary the debt is still increasing. This must stop, and the work of liquidation of the national debt begun. It can only be successfully by this Dominion following the example of other countries—curtailing expenditures wherever possible and increasing revenues by increasing taxation. The people must be prepared for this and must accept it without any complaint. There is no other way out. The longer the debt is allowed to stand, the heavier the burden will become. People realize this in their individual affairs; they must appreciate the fact that it is equally true in their national business.

Notwithstanding the wholesale destruction of the last five years, and the enormous burdens of debt and taxation which must now be borne, the world is still the gainer, because the Great War was the operation whereby the cancer of militarism and the ever-increasing burden of military and naval armaments was cut out of the world's body. The cost of the operation must now be paid for, but the cure affected will give renewed life and vigor to the world, and, by relieving it of an intolerable burden, will definitely add to its prosperity and the comfort and happiness of all people.

Minard's Liniment Lumberman's Friend.

Buy Alberta Ranching Lands
A tract of land containing 3,338 acres, near Vermilion, has been purchased by the Big Bend Land & Cattle Company of Spokane, Wash., from the Vermilion Land and Rangeland Company, for approximately \$130,000. The company, which operates large tracts of land in the United States and Canada, intends placing a large herd of well-bred cattle on the land this summer as well as developing part of its for grain growing.

Canadian Ships Carried Nearly All Own Grain

Some interesting figures dealing with the total export of Canadian grains in Canadian ships as compared with the export in the United States vessels were given in the house in reply to a question from A. B. Copp, (Westmorland). Sir George Foster said 95.55 percent of wheat exported was carried in Canadian bottoms as well as 85.94 percent of export oats, and 89.65 percent of barley.

THE BEST MEDICINE FOR LITTLE ONES

Thousands of mothers state positively that Baby's Own Tablets are the best medicine they know of for little ones. Their experience has taught them that the Tablets always do just what is claimed for them and that they can be given with perfect safety to children of all ages. Concerning them Mrs. Joseph Thieriault, St. Gabriel de Brandon, Que., writes: "Baby's Own Tablets are the best medicine I know of for little ones. I thought I would lose my baby before trying the Tablets but they soon made my baby healthy and happy and now I would not be without them." The Tablets are sold by medicine dealers or by mail. Send a box from The Dr. Williams Medicine Co., Brockville, Ont.

Development at Prince Rupert

New York capital has secured control of the lease of the Prince Rupert dry dock and plans big development work, included in which is the construction of twenty large oil tank steamers to cost approximately \$36,000,000.

SHORT OF BREATH Could Hardly Walk Without Resting.

When you go to a physician to be examined for any heart trouble, one of the first questions he asks is: "Are you short of breath?"

Now, when the heart becomes affected there ensues a feeling of a choking sensation, a shortness of breath, palpitation, to shivering, irregular beating, smothering sensation, dizziness and a weak, sinking, all-gone feeling of one's life.

On the first sign of the heart becoming weakened or the nerves unstrung, Dr. Merz's Heart and Nerve Pills are just the remedy you require. They regulate and stimulate the heart, and strengthen and restore the whole nerve system.

Mr. Stephen Crouse, East Clifford, N.S., writes: "I suffered for five years with heart trouble. I could hardly walk from the house to the barn without resting, as I used to get so short of breath. Doctors could not help me. My wife told me to get a box of Merz's Heart and Nerve Pills and I felt better after taking them; three boxes made me quite well. I am now helping my son to work the farm, and can truthfully say I feel like a different man."

Prize Six a box at all dealers, or mailed direct on receipt of price by The I. Milburn Co., Limited, Toronto, Ont.

Stock Raising in B.C.

Breeders of the Province Are Going In For Purebred Cattle

The breeding of purebred stock for export, is believed to be a coming industry in British Columbia. Development of this new industry is bringing new breeders into the province. New herds are being brought together, the owners of which have a guarantee that there will be an abundant market for blue-blooded cattle, not only locally and in the other provinces and adjoining states, but as well in Hawaii, Australia and New Zealand.

Several head of purebred Holstein cattle have been sent to Australia from British Columbia recently, and it is said that Australian stockmen are planning to send their representatives to Canada for the purpose of securing registered Hereford, Holstein and Jersey cattle.

Korean Alphabet

Consists of Fourteen Consonants and Eleven Vowels

One of the first acts of Japan, upon taking over Korea, was to forbid the printing of books in anything but Japanese characters. On-mum, the script of Korea, is altogether different from the language of China and Japan, and was at first despised because it was "so easy that even women could learn it in a month." The script is ascribed by Korean annals to the year 1447, when the King of Korea, resolving to assert his independence by abandoning the use of Chinese writing as the official medium of correspondence, invented an alphabet to suit the special requirements of the vernacular. The Korean alphabet consists of fourteen consonants and eleven vowels. The characters are of an extreme simplicity, contrasting strongly with the complex Chinese. There are no pronouns of the first and second person, the third, with relational particles, serving for both.

Minard's Liniment used by Physicians

Exports From Alberta

An increase of approximately seven million dollars in exports to the United States from Alberta in 1919, is shown in the report of the United States consul at Calgary. Cattle, wool, grain, butter and fur, constituted the chief articles of export.

Trumpets were in use at the time of Homer.

Sunshine - Mr. Stauffer
Vocal Solo - Miss M. Richards

On The Job

It is a pleasant thing to find the
man who knows his trade; he or-
nament the human kind, his fame
will never fade. I take my car to
divers shops to have the works re-
paired, what time the carluretor
pops, and busted wires are bared.
And one will toll around all day
and make the blamed thing worse,
and if he duly gets his pay he cares
no tinker's curse. Another breaks
a costly piece as with a sledge he
beats, he smears a lot of rancid
grease upon the velvet seats. And
then I find the able gent who knows
just what to do; he finds the rinkum
that is bent, the one that broke in
two. He diagnoses my old boat as
some great surgen might and he
restores my errand goat, and fills
me with delight. In ten brief min-
utes he has found just why the mo-
tor stuck; he deftly makes the wheels
go round, and taxes me one buck. His
shirt is damp with motor oils, he is
in grime arrayed, but has my bless-
ing as he tells—the man who knows
his trade.—Walt Mason.

Gopher Competition

March 30th 1920.
The Secretary-Treasurer,
School District.
Dear Sir,

The Council of the Muni-
cipal District of Rosebud offer three cash
prizes viz: First \$5.00, Second \$3.00,
Third \$2.00 to the pupils of each School
District within the Municipality for the
destruction of Gophers under the following
conditions.

(1) The total catch for any school shall
not be less than four hundred.
(2) The tails only be required to count.
(3) All counting to be done and the
tails immediately destroyed in the pre-
sence of the teacher.
(4) Competition to close May 17th,
next at noon.
(5) The teacher immediately after above
date to send to W. McRory, Sec. Treas.
Crossfield, a certified return of the
names of those returning the First, Sec-
ond and Third highest numbers, also
the grand total of all tails returned by
the pupils of the school.

Further a Grand Prize will be paid to
the pupil within the Municipality who
returns the greatest number, of TEN
DOLLARS.

Please use your best efforts to make this
a success.

By Order of the Council,
W. McRory, Sec. Treas.

Great Changes in Britain Are Wrought by War

Atlantic City, N.J.—Changes have been wrought by the war in Great Britain which "almost deserve the title of revolution," said Sir Auckland Geddes, British ambassador to the U. S., in an address before the annual convention of the United States, Chamber of Commerce. Vast new classes have been enfranchised, he said, and the working classes, strong-militaristic, now hold "ultimate political power."

"They seek to limit the nation's power," he said, "to secure tranquility in Asia Minor, in Asia and Africa. Silently and without fuss, the army has been reduced to a strength which many think barely sufficient to police the empire. The people are determined to deal with problems of health, housing and education. They see clearly that to secure their purpose they have to get the rancors and animosities that have torn Europe and brought her to the brink of destruction."

Reports of dissensions between the representatives of Britain and France and Italy at San Remo were "fantastic," the ambassador assured the chamber.

"The great question you have to decide," he continued, "is: Are you going to stand by and wait for Europe's troubles to come after you, as they will, or are you going out to help Europe—and remember, I am excluding the European part of the British commission of nations—to win through to reasonable conditions?"

Calgary Editor Honored

J. H. Woods is Made Chevalier of the Order of Leopold

Calgary.—J. H. Woods, editor and managing director of the Calgary Herald, has been created a chevalier of the Order of Leopold by King Albert of Belgium, and on behalf of his majesty the star of the order was presented to him by H. DeBuriel, Belgian consul at Calgary, at a public ceremony. The honor was conferred on Mr. Woods because of his signal services during the war as the secretary-treasurer of the Belgian relief committee for southern Alberta. Addresses were made at the ceremony by Mayor R. C. Marshall, and A. Allen, the chairman of the Belgian Relief Committee, and Mrs. Harold Riley of the women's auxiliary of the committee.

Tank Steamers Awarded to U. S. London.—The eight tank steamers, which have been the subject of a long discussion by the reparations commission of the peace conference as to what nation should receive them, have been awarded to the United States for temporary management.

OH! EACH DAY A LITTLE MORE

Hurry! Let "Danderine" save your hair and double its beauty

To stop falling hair at once and rid the scalp of every particle of dandruff, get a small bottle of "Danderine" at any drug or toilet counter for a few cents, pour a little in your hand and rub it into the scalp. After several applications the hair usually stops coming out and you can't find any dandruff. Help your hair grow long, thick and strong, and become soft, glossy and abundant.

Will Evacuate German Towns

Whole German Force in Ruhr District Must Be Reduced to 10,000 by June 10

Paris.—Premier Millerand, in making a declaration to the chamber of deputies on the results of the supreme council meeting at San Remo, said that the Frankfurt and Darmstadt territories would be evacuated by the French as soon as the allied commissions had established that the German armed force over the number allowed by the convention of August, 1919, had been withdrawn. The whole German forces in the Ruhr region, the premier declared, must be reduced to 10,000 men by June 10, next, and by July 10 all the German soldiers must be withdrawn and replaced by a police force of 10 thousand men.

"I said at San Remo," M. Millerand continued, "and I repeat it here, now, that it is a crime and stupidity to believe that France desires to annex any fresh German territory. 'The details of the treaty with Turkey cannot be divulged before Turkey's plenipotentiaries come to Paris on May 10, but I can say that the treaty is in conformity with the principle already made public, the Turks being maintained in Constantinople and in the territories in which they are in the majority.'"

"An appeal has been sent to President Wilson asking him if he can't make any take up the mandate for Armenia, at least to collaborate in the fixing of the frontiers of the new state."

In conclusion, M. Millerand declared that upon leaving San Remo, the allies were more united than ever. "If I may be permitted to say it, especially the entente between France and her sister of the Lath race is closer than ever," he said.

The premier's remarks received great attention, but no enthusiasm was displayed in the chamber.

May Redeem Property

Vancouver Court Refuses To Grant Foreclosure Before Opportunity Is Given

Vancouver, B. C.—German holders of Vancouver property will be given a fair chance to avoid foreclosure and the right to redeem, according to a ruling made in the supreme court by Justice MacDonald. Before the war, Countess Mira Dorchoff, Countess Elsa Forchhoff and Count Bigott Dornhoff, of Berlin, Germany, purchased an apartment house in this city for \$90,000, paying \$36,000 cash and assuming a mortgage. The amount remaining unpaid amounts to \$54,000, and today a local firm asked for foreclosure. The defendants are asking for delay to enable a defence to be entered, and this the judge was inclined to grant.

Protest Against Canadian Cattle

The minister of agriculture received another influential deputation protesting against the permission given some time ago for the importation of a hundred Friesian cattle from Canada and expressing fear that the importation of other herds would be sanctioned. The deputation was told that the reasons were exceptional and a strict quarantine would be imposed, and assured that there was no intention of relaxing the restrictions against stock cattle.

Thrift Conference

Calgary.—The first Dominion thrift conference will be held in Calgary on June 3, 4 and 5. Every woman's organization in the country and the federal and provincial governments are being invited to send delegates.

Potato Boycott

Stratford, Ont.—Some three hundred women at a meeting in the city hall pledged themselves not to buy any potatoes for one month unless offered at \$3 a bag.

Japanese Massacred

Warships Are Rushed to Eastern Siberia With Troops

Washington.—Japanese guards in the district of Nikolaevsk, eastern Siberia, are believed to have been annihilated and several hundred Japanese residents, including the Japanese consul there, massacred, according to an official statement issued by the Japanese foreign office, and made public today by the state department.

The Japanese statement says the suspension of communications with the district rendered it impossible to get at the real state of affairs, but that it was evident that a serious upheaval had taken place. Efforts of the Japanese to dispatch military relief expeditions into the district had failed because of the ice. Meantime, however, the Japanese have sent an expedition to Alexandrovsk, accompanied by the warships Mikasa and Mishima. The forces reached their destination on April 22 and found the Japanese residents in that district safe. Most of them were taken aboard the Mikasa.

Cost of Victory Loan

Canvassers Were Paid Million Dollars in Commissions

Ottawa.—A total of \$1,110,402.37 was paid out by minister of finance in commissions to canvassers and brokers who handled the last Victory Loan. These fees ran proportionally higher in Quebec province than elsewhere; \$352,952.17 was paid on this head in Quebec, representing 22 per cent of the total subscriptions to the loan. In Nova Scotia \$37,575 was paid out, or 20 percent of the subscriptions. In Saskatchewan the figures are \$38,900, or 18 percent; in New Brunswick \$27,500, or 17 percent; in Ontario \$338,670, or 15 percent; in Manitoba \$54,200, or 13 percent; in Alberta \$19,150, or 11 percent; and in British Columbia \$22,455 or 6 percent. Prince Edward Island did not cost the federal government anything in brokerage or commissions.

Lord Mayor of Dublin Returns

Released from Wormwood Scrubs; But Was Threatened With Rearrest If He Returned

Dublin.—Tom T. Kelly, lord mayor of Dublin and Sinn Féin member of parliament, who was released from Wormwood Scrubs prison in England because of ill health, has returned to Dublin. It is said that he will not be able to take office because of the effects of his incarceration. He had been under arrest since May 25, 1916, on charges growing out of the Irish revolt of that year.

A despatch from London February 17, said Kelly's release was due to his state of health. Order of interment, it was added, was not revoked, and it was stated that Kelly was informed he would be arrested again if he made attempt to return to Ireland. During his incarceration Kelly was ordered to report his movements to the authorities.

Says She Cannot Praise Them Enough

MRS. GAUVIN TELLS OF DODD'S KIDNEY PILLS

She Says Her Back Was So Weak She Could Hardly Walk, But Now She Is A Different Person. St. Jean's d'Arc, N.B.—May 3d.—(Special).—Among those in this neighborhood who are enthusiastic in their praises of Dodd's Kidney Pills is Mrs. Joseph Gauvin, a highly respected resident here. "Dodd's Kidney Pills enough," Mrs. Gauvin states "My back was so weak I could hardly walk. I took six boxes of Dodd's Kidney Pills and now I feel a different person."

"Dodd's Kidney Pills have done me a tremendous amount of good."

Of the many persons paying tribute of praise to Dodd's Kidney Pills, it is noticeable that the great majority are women. The reason given for this is that the majority of women's ills come from the kidneys. Dodd's Kidney Pills act directly on the kidneys, cleanse and strengthen them, they enable the kidneys to strain all the impurities out of the blood. "Pure blood is the foundation of health."

Ask your neighbors if Dodd's Kidney Pills do not help weak or sick kidneys.

Not Concerned About Internal Affairs of U. S.

Make Increased Demands

Advance in Wages of 25 Percent Is Demanded by the Winnipeg Building Trades

Winnipeg.—Demands for a straight increase of 25 percent in wages were made by the building trade workers before the public meeting of the provincial fair wage board held today. General dissatisfaction was expressed against the proposed schedule of wages arrived at by the board. A. Cameron, of the carpenter's union, made the declaration that unless more wages are granted the building trade workers of the city, there will be a general migration to the States and other centres where the wages are higher and the cost of living lower. It was claimed that the costs of living had increased 133 percent since 1914, by delegates to the meeting of the board. Working on this basis the general rate of wages should be \$1.50 per hour instead of around \$1.25.

The fundamental cause for all strikes, said James Winning, former president of the Trades and Labor council, is the long time that is taken by various boards in conducting negotiations and arriving at some decision. He objected to the fair wage board making its findings public until after the builders' exchange has presented its schedule to the workers.

Ex-Governor of Kiel Arrested

Berlin.—Rear-Admiral von Levotow, former governor of Kiel, has been arrested and sent to Leipzig, according to a brief message from Kiel received by the Lokal Anzeiger. His removal was beset with great difficulties, as attempts were made to assault him by the crowds.

Fiume Again Blokaded

Communications to the Town Have Now Been Completely Severed

Trieste.—The blockage which Fiume is now undergoing is admittedly the most severe to which it has been subjected. The communications of the town have been completely cut off, regular Italian troops tearing up sections of the railway and bringing up numbers of machine guns to guard the frontiers. Passage in and out of the city is absolutely forbidden, not even milk going in, and connection with the outside world by the sea route has been completely severed. Gabriele D'Annunzio, the insurgent commander-in-chief, is threatening counter action.

Make Open Arrangements

Victoria.—Pilots here claim they have not been informed of the government's decision to declare open pilotage in British Columbia waters after May 6. In that event they are prepared to carry on with their own organization and will make their own arrangements with the shipping interests.

Canada's Assets Have Increased

Ottawa.—A return tabled in the house of commons shows that Canada's total assets at the end of 1919 were \$1,087,537,461.27, on which the country received an interest \$15,732,775.29 or 1.46 percent. This rate was more than twice as high as in 1918, when the country received an interest \$7,421,001.58, on total assets of \$1,102,104,692.33.

Allies on Rhine

London.—The number of British troops on the Rhine is approximately 14,000 according to a statement made in the house of commons by Winston Spencer Churchill, secretary for war. There are 25,000 French troops in that district, 16,000 United States and 20,000 Belgian.

New York.—Letters received here state that M. Zinoviev, Bolshevik governor of Petrograd, has been assassinated by a Russian workman.

W. N. U. 1314

London.—The United States senate Irish resolution was brought up in the house of commons and drew several pointed questions. Donald MacNeil, Unionist member for the Canterbury division of Kent, asked the government if it had "any official information regarding a manifesto to be issued in Washington by an organization known as the Philippine's Commission for independence, in which it is maintained that American belief in the principle of self-determination would be demonstrated more impressively by conceding the repeated demonstration for independence by the three and a half million inhabitants of the Philippines, than by passing resolutions in the senate expressing sympathy with the cause of Irish independence," and whether "a mark of respect for the Americans," the house of commons would be enabled to follow the precedent set by the senate by moving a resolution in sympathy with the Philippine demand for self-determination.

Andrew Bonar Law, replying for the government, said he had no information on the question, which did not seem to be one in which the British government was concerned.

Numerous other requisitions followed, and Sir Edward Carson, the Ulster Unionist Leader, asked whether it was not better for each country to leave the other alone.

Mr. Bonar Law replied he thought that, in other words, it was his answer.

Strikers Appeal to King George

Resolution Is Sent to His Majesty on Behalf of Convicted Winnipeg Leaders

Winnipeg.—King George has been appealed to by the labor leaders' defence committee for the release of the convicted strike leaders.

A copy of the resolution passed at the recent convention has been forwarded to His Majesty and copies have also been sent to the minister of justice and the governor general of Canada. In the resolution it is claimed that the trades unions of the city voted for the strike and were therefore responsible for the same. There was no intention whatever to overthrow the existing forms of government and that an injustice has been done to labor and the men convicted.

To Relieve Prussians

Berlin.—The German committees of San Paulo, Brazil, have sent to Field Marshal Von Hindenburg a gift of 321,842 marks for the relief of the East Prussian population.

"SYRUP OF FIGS" CHILD'S LAXATIVE

Look at tongue! Remove poisons from little stomach, liver and bowels

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative for his or her little stomach, liver and bowels. Children love its delicious fruity taste. Full directions for child's use on each bottle. Give it without fear. Mother! You must say "California."

BOY SCOUT NEWS

Be Prepared

Mental Efficiency

Increasing Interest In Boy Being Shown in the Boy Scout Movement

No doubt you have heard of Boy Scouts and know something of the ideals and activities of this movement. The history of the great war that has just closed, will undoubtedly contain much that will be to the credit of this organization founded in the Old Country some 12 years ago by Sir Robert Baden-Powell. You may possibly have heard of the Junior branch of the Boy Scout movement known as the Wolf Cub, and you no doubt have a general idea that they are sharing with their older brothers those ideals and activities which appeal so strongly to the boy of every land.

Business men are becoming more and more interested in the Boy Scout movement, and in its whole program and they are not doing so without some sufficient reason, but one is safe in saying that that interest is largely circumscribed, because their outlook comprehends only this present instead of taking in that larger future which lies in front. There is no doubt that if we were merely today the opportunities, the privileges and responsibilities of this present that the Boy Scout is a much more valuable asset than the Wolf Cub; but if we turn our gaze to the future, and scan the horizon of its possibilities with anything of prophetic vision, we will realize that the Wolf Cub movement is of much more value and importance than the Boy Scout.

We Britishers have noble traditions. There lies behind us a past second to none. This present in which we live is the greatest that the world has ever known in its possibilities and potentialities, but from the vantage point of today—as we look back and as we look forward—more and more we recognize that our debt to the past is enormous, that to the future is greater still.

The demand and necessity of today is for further efficiency. Efficiency is the result not so much of information as of training, and if this is true of today it will be much truer of tomorrow. We can never go back to pre-war conditions. These are behind us forever. We can only press forward to post-war privileges and opportunities, and if we are going to accept our privileges and seize our opportunities as individuals or as a nation, greater insistence must be made that efficiency, that is the result of careful training.

A good deal is being said about compulsory training for men. This largely refers to physical and military training, and while we recognize that a strong, efficient body is a splendid asset as well for the individual as for the nation, we must never forget that a sound, well disciplined, efficiently trained mind is of much greater value. The time to begin this efficient training is in that period when our minds are most receptive and mouldable, when a strong appeal can be made to ideals, and when the mind is in that plastic period of receptivity peculiar to the junior boy of from 8 to 12 years of age. It is at this period, perhaps more than at any other, when bodily vigor is greatest, and it is at this period also, that mental ability

1-FIRM the Prince of Wales at the Nipigon Lodge Sept 29;
2-Virgin Falls.
3-The Royal Party on the Launch "Arrow."
4-Mr. A.S. Brown (winner) Kingsville, Ontario.

WINNING THE NIPIGON "SHIELD"

The Nipigon waters have long been famed as the favorite haunt of speckled trout, but for a novice who has never spent more than a few hours in hook and line fishing, to land the prize trout of the season is quite unheard of. Yet that is precisely what was done last season by A. S. Brown of Kingsville, Ont., who has been pronounced the winner of the Nipigon trophy which is annually awarded by Canadian National Railways to the angler catching the largest trout of the season in accordance with the conditions of the competition.

Competitors must be non-residents. The fish shall be a true speckled trout, not a lake or gray trout. It must be caught in Nipigon waters during the lawful season, and by rod and line, with either a fly or a single hook with bait. A regular affidavit as to the catch, or an exact copy thereof, shall be used in filing entry, signed by the angler together with the certification of two or more persons, who shall thereby vouch for the facts of the entry.

This affidavit is to be filed with the manager of the Nipigon Lodge within two weeks, or with the Manager of the Canadian National Hotels, Toronto, within one month of the catch. Mr. Brown, the winner in 1919, is

can be most easily created. Here, then, is the time for laying foundations, foundations of physical health and mental vim, upon which any future structure of success depends. This is the period also when love of work can be engendered, when sympathy can be encouraged to grow, when the imagination can be wisely directed, and when self-control and self-confidence can be woven most advantageously into the fabric of character.

The home, the church and the school are all making a contribution towards the development and formation of character, and perhaps it is no exaggeration to say that, especially in our city life, the school is the strongest factor in this process. These three great institutions, however, occupy only a fraction of the waking time of the boy, and it is in his unoccupied time—the "No-Man's Land" period—that the boy is most seriously menaced.

The Boy Scout and Wolf Cub movements are making a splendid contribution in this direction, in giving the boy a new interest in life and a fuller appreciation of his social duties, as well as providing him with the opportunity for making himself more efficient through training. For example: "The qualifications for the house order's badge are as follows: Must clean a grate, lay a fire and light it with a new match; make a good cup of tea and fry or poach an egg; peel potatoes and boil them and know how to cook greens; clean a pair of boots; make a bed; wash up crockery, utensils, etc.; clean windows, knives and brasswork." The boy who has qualified for this badge has received training that makes him much more efficient and therefore a much more valuable boy as well in the home as in the state.

Again, the qualifications for the First Aider's Badge and the Guide's badge are—First Aider: "Must be able to bandage a hand in such a way as to stop bleeding, and be as antiseptic as possible; and know how to clean up and treat a grazed. Know treatment for sprains and how to apply the wide bandage to a sprained ankle; know how to put on the large

president and manager of the Northern Fish Company and also President of the Lake Erie Fishermen's Association. To quote his own words, he says: "While my business is commercial fishing, I do not hesitate to say that at a very few hours on the most of all the time I have ever spent in hook and line fishing; so it goes to show that a novice is as likely to catch a prize trout, where fishing is good, as is the old and seasoned."

Mr. Brown's party, which included Mrs. Brown, Mr. and Mrs. Wade and Miss Helen Wade, of Detroit, arrived at Nipigon Lodge on July 25th, and spent the following ten days at the Lodge, making frequent trips to Virgin Falls in the launch "Arrow," which is operated from the Lodge, by Mr. Neil McDougall. On August 6th at Virgin Falls, Mr. Brown made the big catch which won him his trophy, using a 6oz. rod, Shakespeare reel, 25 yard coiled line, fly hook, Colorado spinner and no bait. It was a fine specimen, 24½ inches long, 14½ ins. in girth and weighing 6½ pounds.

Of Nipigon district, Mr. Brown says: "It is a most beautiful spot and well worth the time spent there, even though we had never caught a fish. We spent many pleasant hours running and canoeing along the shores of

arm sling and the head bandage; know the treatment for stopping bleeding from the nose; know how to extinguish clothes that have caught on fire, and how to treat minor burns and scalds; grit in the eye; choking; and preventatives against and treatment of sunstroke."

Guide's Badge: "Must know which way leads to nearest big city, and how many miles away it lies; and the direction and distance away of three neighboring towns or large villages (the Pack headquarters should be taken as the centre from which distances are measured). Be able to give clear directions to a stranger asking his way, well expressed, and distinctly spoken, and be capable of doing so politely and promptly. Be able to deliver a short verbal message correctly. Know the whereabouts and distance away of the nearest police station, fire-station, doctor's house, chemist's shop, hospital, clergyman's house, blacksmith's forge, motor garage and hotel. Also the name and whereabouts of the best shops for various classes of goods. Have a knowledge of all short cuts for an area of a quarter of a mile around Pack headquarters.

Be able to estimate distance roughly (viz., or directing people); know the history of the parish, or of any historical place in the neighborhood (church, castle, battlefield, etc.)."

It will be readily seen and admitted that the boy who has acquired the information necessary for these badges has received for himself a greater interest in life, and has made himself a much more efficient asset to the community and nation to which he belongs. No better opportunity is provided for the training of efficient citizenship than is being provided today in and through the Wolf Cub movement.

Hundreds of boys desire to become Wolf Cubs. That their desire may be realized, courses of leaders are necessary, and men and women of good character and with a full appreciation of the value of the future citizens and a keen interest in the boy of today. It is always welcome to the great work. Should the reader of this be personally interested in or be able to

Orient Bay, and up a little stream which winds in and out among the high rocks, and if you go up far enough you will find that it starts from practically nowhere between two high walls of rock. Along the shores of this stream, in the evening, we saw as many as five and six fine moose. They seemed little disturbed at seeing us and as long as we made no noise they were in no hurry to leave. We are all looking forward to another trip to Nipigon Lodge, at Orient Bay, and hope to meet our old friend Neil McDougall."

Mr. Hendrick Hudson, of Syosset, N.Y., also made a fine catch at Virgin Falls and ran Mr. Brown a close race for the trophy. His trout was 24 inches in length, 14½ inches in girth, and weighed 6½ pounds, but he used a coccatote bait, which, in the opinion of expert fishermen, takes less skill to handle than a fly aplanner. Otherwise the honors would have had to be divided.

Mr. W. G. H. Browne, of Toronto, was another lucky fisherman, his trout weighing 6½ pounds, and being 23½ inches long and 16 inches in girth, but the date of the catch, which was September 16th, put him out of the running for the trophy.

Interest others in building up the best kind of citizenship they can readily receive further information from Provincial Headquarters, Boy Scouts' Association, 132 Board of Trade Building, Winnipeg, Man.—Saskatchewan, Room 1, Union Bank Bldg., Regina, Sask.

Britain to Honor Canadians

British Government to Present to the Next-of-kin A Handsome Memorial Plaque

According to a statement given out by the Canadian Militia Department the British government intends to present to the next-of-kin of every Canadian soldier who made the supreme sacrifice during the great war, and to certain others a handsome memorial plaque and scroll, the expense, it is needless to add, being borne by the government in question. The scroll is to be accompanied by a personal message from King George. The plaque measures four and three-quarter inches in diameter and one-eighth in thickness, and will have engraved on it the Christian and surname and regiment of the soldier or sailor, as the case may be. Certain women who served under direct contact with the war office will also be honored in similar fashion. The note, which is to be signed by the King, will read as follows: "I join with my grateful people in sending you this memorial of a brave life given for others in the great war."

Preparing For A Large Fruit Crop

Never before in the Valley's history has such careful attention been given to spring pruning as is in evidence in the orchards this season, writes a correspondent from Creston, British Columbia. The 1919 season was the "off" year for apples and with the prospect of 1920 being a banner year the trees are being especially looked after. If the ratio of increase is on a par with that in evidence following the "off" year of 1917 the Valley may moderately look forward to a crop of 200,000 boxes in 1920.

Boy Bankers Are Organized

Thrift is Essential to Sound Morality And Good Citizenship

"You cannot eat your cake and still have it." That's what father used to tell me when he wished to caution me about spending money for things that I "wanted" but did not "need." Many young men waste enough money and money which is the surest earned money—between the ages of 15 and 25 to start them up on a fair-sized farm, if they had saved it.

Because he believes that thrift is essential to sound morality and good citizenship and that the boy trained today will become the man of tomorrow, Mr. Frank Collins has organized the first boys' bank in the world, as a distinct and separate apartment of the First Trust and Savings Bank of Canton, an Ohio city of 100,000 people. This bank has six tellers' cages and windows, and occupies a space 28 feet by 125 feet.

It is equipped with all the modern conveniences, and already several hundred lads have opened accounts in this bank.

Each ambitious boy entering the bank is courteously and kindly received. He is at once made to see and feel that this is his bank, ready to render him beneficial service. Special story books have been printed, and each boy is encouraged to start a savings account. Under the careful, positive, genial guidance of the manager and his assistants the lads are instructed by example and suggestion in the important laws and advantages of thrift, sound business and good citizenship.

"Banks," said a prominent business man recently, "are among the great moral agencies of our country. The greater extent to which a citizen is in a high sense a part of his life. He puts his days and months and years into it—and life is made up of days and months and years. When you, therefore, encourage a junior citizen to save his money, you are encouraging him to have his life, and life is the most precious of all possessions."

"Money earned honestly has a double value; an intrinsic value, what it will buy of life's physical necessities; an intrinsic value—for when a boy earns and saves \$100 or \$500 he has not only so much capital with its intrinsic value, but in earning he has acquired habits of economy, industry, self-reliance and backbone—all Christian virtues without which he can never be a good citizen or of any value to himself or society."

Junior farmers are quite as capable of starting bank accounts as city boys. One can start with one dollar in a savings bank, and the money earned through gardening or the profits of calf or pig club or poultry management, will make a fine start, even if a humble one. Dimes make dollars.

Farming on A Big Scale

Looking For A Big Crop in Southern Alberta This Year

More than ten sections of land, 6,400 acres, will be put into crop this year by the interests represented by B. K. Bullock at Tabor, Alberta. Mr. Bullock says he has made plans for large farming operations during the coming season, and is very optimistic over the eventual outcome. He believes the southern Alberta will harvest a big crop this year.

The Noble foundation, of Nobleford, Alberta, is making preparations for the seeding of about 18,000 acres, of which 8,000 acres will be in wheat. The rest of this large area will be sown to other grains, including oats, barley, flax and rye.

City Girl All Right

The 17-year-old daughter of a city man was visiting a farm for the first time.

She immediately became interested in the prize cattle, and asked many questions.

One evening just at dusk, as the girl was standing at the open door of the farmhouse, talking to the manager, she came the low, mournful note of a cow.

"Just listen to that poor cow," said the girl, "mewing for her colt."

How to Cure Biliousness
Doctors warn against remedies containing powerful drugs and alcohol. "The Extract of Roots, long known as Mother Selig's Curative Syrup, has no dope or strong ingredients! It cures indigestion, biliousness and constipation. Can be had at any drug store." Get the genuine. 50c. and \$1.00 Bottles.

A woman derives more satisfaction from the thing she suspects than from what she is sure of.

"I Cannot Go"

BILIOUS headache spoils many an expected enjoyment.
When the condition of the liver is neglected, biliousness seems to become chronic and recurs every two or three weeks, with severe sick headaches.

Why not get right after this trouble and end it by using Dr. Chase's Kidney-Liver Pills to restore the health and activity of the liver.
Constipation, indigestion, headache, biliousness and kidney derangement soon disappear with the use of this well-known medicine.

One pill a dose, 20 cts. a box; all dealers, or R. G. LONG & Co., Ltd., Toronto.

Dr. Chase's Kidney Liver Pills

Americans Secure B.C. Timber Limits
Michigan interests are reported to have acquired timber limits from the East Kootenay Lumber Co. to the extent of 500,000,000 feet, and will operate a pulp and milling business at Watsburg or Cranbrook. The mill capacity in the neighborhood of this point is 1,000,000 feet a day at present.

A DESIRE TO EAT WHAT YOU WANT
How Stomachs Can Be Restored To A Vigorous, Healthy Condition

Not to be limited in diet, but to eat what he pleases is the dream of every dyspeptic. No one can honestly promise to restore any stomach to this happy condition, because all people cannot eat the same things with equally satisfactory results. It is literally true that "what is one man's food is another man's poison." But it is possible to so tone up the digestive organs that a "pleasing diet may be selected from articles of food that cause no discomfort."
When the stomach lacks tone there is no quicker way to restore it than to build up the blood. Good digestion without rich, red blood is impossible, and Dr. Williams' Pink Pills offer the very best way to build up and enrich the blood. For this reason these pills are especially good in stomach trouble attended by thin blood, and in attacks of nervous dyspepsia. Proof of the value of Dr. Williams' Pink Pills in even the most obstinate cases of stomach trouble is given by Mrs. S. Morrison Varney Ont., who says:—"I shall always feel indebted to a friend who advised me to use Dr. Williams' Pink Pills. I had been a sufferer for upwards of twelve years with stomach trouble which resulted in a general weakness of the whole system. My meals always caused me great discomfort, and at times I would get hungry rather than undergo the suffering which followed meals. I was constantly taking something or other recommended for the trouble, but without finding a cure, and often the trouble kept me in bed when I should have been about doing my housework. My friend, who had had a similar attack came to see me and urged me to try Dr. Williams' Pink Pills which had cured her. I got a supply at once and began taking them, and soon found relief. By the time I had used eight boxes I was again enjoying the best of health and with a good appetite and a stomach restored to normal. Had I known of this medicine earlier it would have saved me years of suffering, and I urge any who may be in a similar condition to try these pills at once."
You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail postpaid 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

How's This?
We offer \$100.00 for any case of catarrh of the bladder cured by HALL'S CATARRH MEDICINE. HALL'S CATARRH MEDICINE is taken internally and acts through the blood on the diseased membrane of the bladder. Sold by druggists for over forty years. Price 75c. per bottle. Get the genuine. F. J. Cheney & Co., Toledo, Ohio.

Naval Governor For New Zealand
Viscount Jellicoe is Appointed Governor General and Commander-in-Chief of Dominion

The Colonial office has announced that His Majesty King George has been pleased to appoint Admiral of Fleet Viscount Jellicoe to be Governor-General and Commander-in-Chief of the Dominion of New Zealand in succession of the Earl of Liverpool, who will shortly retire from that office. Lord Jellicoe was very warmly received in New Zealand last year during his naval tour, where he spent about six weeks.

In discussing Lord Liverpool's successor, the chief government newspaper, "The Dominion," urged the appointment of an admiral in view of New Zealand's naval policy.
"There is obviously no reason why the King's representative should necessarily be an earl or a baron, as has been the case for the last thirty years," declares "The Dominion," "and there is even less reason why the post should be used as a jumping-off place for the perage by British party politicians. New Zealand does not want a purely ornamental governor-general, nor yet one with an ingrained and life-long habit of having a finger in the political pie." The Journal adds that a senior officer of the navy would make a good governor, since he could give some expert advice on naval defence.

The nomination method of appointing governors seems to suit the present organization of the Empire. But the governor ought to be a man of infinite tact, conscious of his occupation, a somewhat anomalous position. He may have influence, but he must not try to rule. New Zealand has had governors of many types, and it has liked some of them much better than others. The governor who would be intolerable would be he who imagined that Downing Street had given him authority to direct the public affairs of the Dominion.

Saskatchewan's Egg Industry

Export Business Has Been Steadily Increasing During the Past Year
At one time Regina, Saskatchewan, was a large importer of eggs and poultry, but now it is sending both to the markets of Eastern Canada, and also to the Pacific coast. According to the reports of L. T. McDonald, Commissioner of the Board of Trade of Regina, there were 900 cases of eggs shipped from this city during the week ending April 17. In each case there were 30 dozen eggs. This large export business has been steadily increasing during the past year and it is estimated that the farmers in the neighborhood who are raising poultry are earning a good sum of money because business. The market demand for eggs continues to be good and there is practically no trouble in disposing of all the available supply.

Ambassador For Dominion

Canada Will Likely Have Own Representative in U. S.
Discussions are in progress between the United States and Great Britain which give substantial promise of ending in an agreement by which Canada will be represented in Washington by a diplomatic agent of high rank.

Such representation is understood to be desired keenly both by Canada and the United States and to be opposed by Great Britain. The conversations on the subject are described as being actuated by the wish of the Canadian government to be concerned to facilitate negotiations between Canada and the United States on question in which Great Britain is interested only by the fact that Canada is one of her Dominions.

So far as can be learned, the only difficulty that has been encountered to date is in fixing the exact status and rank that the diplomat would have and in determining in advance so as to avoid any chance of friction concerning the relations that he would bear to the British ambassador in Washington. The prospects are that the Canadian representative would have wide freedom of action in matters directly affecting the Dominion. A decision on this point may be expected soon.

Subjects of interest common to the United States and Canada at present frequently meet with long delays in settlement because of the circuitous route they have to follow in the process of negotiation through the British embassy. If a direct exchange of views might be arranged, it is thought by many officials, that much benefit would be derived by the United States and Canada and, indirectly, by Great Britain.

The duties would correspond in a large part with those of a high commissioner, and this is the title that may be given the new representative. During the war, Sir Richard Crawford, as a commercial attaché of the British embassy, had Canadian possessions directly under his supervision, and was able to render an important service in the relations between the United States and Canada. It was mainly because attention was called to the greater advantage of closer relations between the two countries that the proposal for an

exchange of high ranking diplomatic representatives is now being urged.—N. Y. Evening Sun.

Self-made men are scarce, but self-made fools are plentiful.

In the Spring Time

Any fool knows enough to carry an umbrella when it rains, but the wise man is he who carries one when it is only cloudy. Any man will send for a doctor when he gets bedfast, but the wiser one is he who adopts proper measures before his illness becomes serious.

During a hard winter or the following spring one feels run-down, tired out, weak and nervous. Probably you have suffered from a cold, the Grip or flu, which has left you thin, weak and pale. This is the time to put your system in order. It is time for house-cleaning.

A good, old-fashioned alternative and temperance tonic is one made of wild roots and barks, without the use of alcohol, and called Dr. Pierce's Golden Medical Discovery, in tablet or liquid form. This is nature's tonic, which restores the tone of the stomach, activity of the liver and steadiness to the nerves, strengthening the whole system. First put up by Dr. Pierce over 20 years ago, now procurable at any drug store; or send 10 cents to Dr. Pierce's Laboratory, Bridgeburg, Ont., for trial package.

The Women's Institute Library committee will be pleased to receive names of authors of any good books known to readers who are interested in the library. You are requested to write any you may choose on paper and hand same to librarian as soon as possible, Merrick Thomas, Drug Store, Crossfield.

There was quite an exodus of the feminine sex left town for the city to take in the Hudson Bay Pageant on Wednesday, Mrs. A. R. Thomas, Mrs. D. Ontkes, Mrs. A. W. Gordon, Mrs. M. Thomas, Mrs. R. W. McFarlane, Mrs. A. C. McLees, Mrs. G. C. Massey and children were those we noticed boarding the noon train. The poor fathers staying at home to work, get supper and attend to the wants of the remainder of the family. We noticed several of the said fathers waiting around for the midnight train in order to escort wife home. We have heard a few remarks this morning (Thursday) to the effect that the Pageant was a rare treat and will be remembered for some time.

City Girl All Right

The 17-year-old daughter of a city man was visiting on a farm for the first time.

She immediately became interested in the prize cattle, and asked many questions.

One evening just at dusk, as the girl was standing at the open door of the farmhouse, talking to the manager there came the low, mournful note of the cow.

"Just listen to that poor cow," said the girl, "mewing for her colt."

Notice to the Public

Hugh McBean wishes to announce that owing to the scarcity of feed, he will rent stalls without feed until further notice. Double stalls 25 cents, single stalls 15 cents.

Hugh McBean.
